BIO: With over 25 years in the water damage industry, ERC is an on-call emergency response cleanup team. Our skilled and IICRC-certified water remediation technicians can respond to any type of water loss that any property owner can experience. Whether its

residential, commercial, or multi-housing structures, ERC has the capability to restore these structures to pre-loss conditions. ERC is available to respond to emergencies 24 hours a day, 7 days a week. We can respond within 90 minutes, or by appointment for a non-emergency situation. We specialize in the extraction, sanitation, and drying of clean, gray, and sewage water loss. With our skilled and certified water remediation technicians and top of the line trucks and equipment, we can provide cleanup services in, around, and underneath residential, commercial, and multi-housing structures. In addition to water damage restoration, we also provide services in mold remediation and rodent dropping mitigation. We work with all insurance companies.
